

## Effective September 1, 2023

All pickup locations must have minimum pickup requirements to waive a \$400 service charge. Please refer to the examples provided to waive service charge.

- A minimum of 40 computers and/or laptops, or 80 Chromebooks will eliminate the \$400.00 for each pickup location.

*Essentially, if a location meets the minimum piece count of computers, laptops and/or Chromebooks, that location will receive a credit of \$400.00 toward the service charge –waiving the service charge.*

For school districts scheduling multiple locations on the same date

*Example: A High school has 200 laptops; a Middle School has 20 computers; an Elementary school has no computers or laptops. The amount of laptops at the high school that are more than the minimum count as a credit toward the minimums for each of the other schools in the district that are scheduled on the same date.*

- ***\*\* For districts scheduling multiple schools on the same date –the maximum service charge for up to 5 locations on the same date in the same district is \$800.00. Your schools will need only 80 laptops and/or computers; 160 Chromebooks or a combination thereof to qualify for waived service charge for all locations.***

## QUANTITIES COUNT FOR FUTURE CREDIT

Computers, laptops and Chromebooks that are more than the minimum can also be applied to future pickups for that location and others in the district within a 6-month period.

*Example: A High school has 200 laptops and schedules a pickup in September. A Middle School and Elementary school need pickups in November but neither location meets the minimum. The excess of laptops from the High school pickup in September can be used as a credit to waive the service charge fees for the Middle School and Elementary School in November.*

## QUANTITIES ADD UP TO DISCOUNT SERVICE CHARGE

For any locations that do not meet the minimum quantities, or those that have no credit available to apply – a discount toward the service charge can be applied based on the number of computers, laptops, or Chromebooks that are being recycled on the pickup date.

*Example: A High school only has 10 laptops and 20 Chromebooks. No other schools are being picked up in the district at this time, and no prior credit is available for this location from pickups performed in the previous 6 months. Based on the items being picked up, the high school qualifies for a \$200 discount which would apply toward the \$400 charge.*

## ALSO EFFECTIVE SEPTEMBER 1, 2023

Due to rising recycling and disposal costs, there are some items we can longer take at no charge.

Credits received from the abovementioned items can also be applied to recycling and disposal charges. Recycling computers, laptops and Chromebooks that are in excess of the minimum apply to that location & others in the district within a 6-month period.

Pickup, recycling, and disposal of the following items will be charged in addition to the service.

- Printer / Toner - \$5.00 each
- Projection TVs / TVs above 24" - \$40.00 each
- TVs below 24" - \$30.00 each
- CRT Monitors - \$15.00 each

NOTE:

***\*\*Each laptop, computer and/or Chromebook must be unmanaged to receive credit toward a service charge or disposal fee. Units found to be managed at the time of pickup will not be credited toward any service charge or disposal fee.***
